3. Responsibilities 4

1. Management Commitment to Information Security

Under the responsibility of the Global CIO, IT Senior Leadership Team (SLT) is committed and has the mandate for setting the strategic direction in Information Security. This strategic direction is covered in this policy and is owned and published by Information Security Team.

2. UPL's Information Security Objectives

The main objective of Information Security Policy is to assure and communicate the management direction and support for Information Security in accordance with UPL's business requirements and relevant laws and regulations. UPL adheres to the following security objectives:

1. **Confidentiality**: To protect Information including other information assets from unauthorized disclosure or access
2. **Integrity**: To ensure business and external stakeholders can trust UPL data
3. **Availability**: To ensure that information and vital IT services are available when required
4. **Reliability**: To prevent Information security related events from affecting UPL's business
5. **Compliance**: To ensure compliance with legal and regulatory requirements

3. Responsibilities

- Cyber Security team is responsible for the development and implementation of the Information Security Management System based on the direction provided by Global CIO
- Cyber Security team has been entrusted to further improve the Information Security Management System framework
- All UPL employees and contractors are required to adhere to the Information Security Policy and derived documents. Non- compliance is subject to disciplinary action according to local regulations.
- Regular reviews and audits are performed to identify gaps, and proposed actions are addressed to continuously improve UPL's cyber security posture
